

Why do I have so many computer accounts??!?

A guide to all of the log-ins at ACSD

Network ID

This is the one you use to "unlock" a computer. As of 8/17 all ACSD buildings are on the same network. This means you can log in (first initial, last name) anywhere in ACSD!

Google

We use Google for email, GDrive, and GSuite. Log in to your email at mail.google.com You can bookmark this website if you'd like or just type it into the address bar on a browser.

Saving Files

There are two places where you can save files: Your Google Drive (GDrive) or your network folder. If you save things to your hard drive they will not be backed up and you could lose them!

GSuite

GSuite includes a word processing program (Docs), spreadsheet program (Sheets), presentation program (Slides) and many more. All are accessible through a browser on any device.

Schoolwires (aka Blackboard)

Our school website - acsdvt.org - is called Schoolwires. All staff have a first initial, last name login. You will have to sign in on the website in order to see some content meant only for employees.

PowerSchool

PowerSchool is our Student Information System. Teachers log into PS at acsusis.org/teachers
Staff login to PS at acsusis.org/admin
Usernames are first initial, last name.

If you have any questions...

You can always contact the Tech Dept if you have any questions or issues. This website has a form to create a new tech request.

Systems not administered by the Tech Dept:

- Gail Leach runs the HR Portal, Infinite Visions. Email gleache@acsdvt.org for support.
